

Dear Ladies and Gentlemen!

We present to you the information system "Investment passport of the Kirsanovsky municipal district".

Kirsanovsky district is one of the municipalities of the Tambov region. Favorable location, beautiful nature, favorable climate, clean air and the ecological system of the district itself-all this forms the investment attractiveness of the district.

This is also facilitated by the political and social stability that has developed in the district, the active work of the administration to create the most favorable legislative and tax climate for investors, and the availability of qualified labor resources.

The significant historical and cultural potential of the district is represented by monuments of nature, architecture and history, reflecting different centuries and events. The picturesque nature, combined with the system of numerous historical evidences, allows us to consider the area as promising for the development of tourist infrastructure. Today, the main task in the field of socio-economic development of the district is the creation and development of existing production facilities, tourist infrastructure. Priority is given to investment in agriculture, tourism and recreation. It is possible and realistic to establish production capacities.

The administration of the Kirsanovsky municipal district guarantees potential investors the creation of optimal conditions for successful business: prompt resolution of issues, transparency of processes, and open dialogue.

We are interested in ensuring that your business is efficient, stable and safe, taxes are paid to the local budget, the economy of the district develops, and the quality of life of its residents improves.

We invite you to long-term and mutually beneficial cooperation.

I am convinced that the Kirsanovsky district will open up new horizons for the development of your business!

With respect,

The head of Kirsanovsky

municipal district Redin Alexander Ivanovich.

Kirsanovsky district was established in July 1928.

It is located on the Oka-Don plain, on the watershed between the Don and Volga rivers.

According to its geographical location in the Tambov Region, the district is located in the northern and north – western parts of the region.

Kirsanovsky district bounded on the North – West Bondarskogo District in the North Gavrilovsky district, on the East Umetskaya district to the South, Inzhavinskiy district, on the West Rasskazovskogo district.

The distance to the regional administrative center (Tambov) is 97 km.

international phone code - +7 (47537)

The distance to Moscow is 566 km.

There is no time difference with Moscow

The area of the municipality is 1,308 square kilometers.

The population density is 15.54 people per 1 sq. km.

Climate conditions:

Kirsanovsky district is located in the temperate climate zone, and is part of the continental climate region of the East European Plain.

The climate is temperate continental with unstable humidity. In some years, from 200 – 350 to 700 mm of precipitation falls. The average annual precipitation is 350-450mm. Average January temperature -

-11.1*S, July - +20.2*S.

In general, natural and climatic resources and conditions are favorable for the development of agriculture.

Resources.

Mineral resources of the Kirsanovsky district are represented by construction materials. According to the results of the exploration work carried out in the area, several deposits, sites and promising areas, construction materials were identified.

The most promising for industrial development are : clay raw materials for the production of ceramic bricks – 6,621 million cubic meters; construction sands - 4,859 million cubic meters; siliceous raw materials-14,011 million cubic meters.

Siliceous rocks are a promising raw material for wall ceramics.

Water.

The main waterways of the district are the Vorona River-86 km., the Pursovka River-54 km., the Ira River -55 km. Large lakes from the surface of the mirror: Kipets – 70ga. Ramza – 300ga., Prorva-70ga.

The water resources of the district are represented by surface and underground waters.

It is obvious that the Kirsanovsky district has a significant reserve of fresh ground and underground water for domestic drinking water supply.

According to the Territorial Center of the State Monitoring of the Geological Environment and Water Bodies of the Tambov Region, 2 deposits of fresh underground water with approved reserves of 17.9 thousand m³ /day have been explored in the Kirsanovsky district. The maximum water extraction is carried out

from the Lower Cretaceous aquifer complex (90%), the rest is extracted from the Upper Devonian complex (10 %). In general, the district has a fairly large mineral resource base for the development of the construction industry.

Forest.

The location of the Kirsanovsky district in the forest zone causes a high level of

The forest area of its territory is 8.9 %, the total forest area as of 01.07.2017 was 13.7 hectares.

The main forest-forming species is petiolate oak-42%, aspen-26%, black alder-8%, pine-3%. The total wood stock is 1.9 million m³.

The district is one of the most wooded areas of the Tambov region. 7356ha of the territory is occupied by Kirsanovskoye forestry. On the territory of the district there is a Reserve "Voroninsky" with an area of 5330 ha.

The main forest-forming species is petiolate oak-42%, aspen-26%, black alder-8%, pine-3%. The total wood stock is 1.9 million m³.

Land plots.

The total area of the Kirsanovsky district within the administrative boundaries is more than 130 thousand hectares. or 3.8% of the entire territory of the Tambov **Region.**

The boundaries of the Kirsanovsky district are established by the Law of the Tambov Region of 02.11.2017 No. 154-Z "On establishing the boundaries of the municipalities of the Kirsanovsky District of the Tambov Region and Determining the Location of their Representative bodies and on invalidating Certain provisions of certain legislative acts of the Tambov Region".

The territory of Kirsanovsky district consists of the territories of its rural 8 rural settlements: Golynshchinsky, Inokovsky, Kalais, Kovylsky, Leninsky, Maryinsky, Sokolovsky, Uvarovshchinsky.

The territory of the Kirsanovsky district is mainly characterized by a relatively favorable state of the environment. There are no large industrial facilities that pollute the natural environment. Kirsanovsky district, like the entire Tambov region, belongs to an ecologically clean territory. Here, a lot of attention is paid to the fight against environmental problems. Regularly, all municipalities of the district, with the participation of members of the youth parliament, clean water bodies from garbage and remove unauthorized landfills, carry out sanitary cleaning of forest belts from dead wood.

Human resources are the main driving forces of activity, as they produce results. From the words of Henry Ford: "My main capital is people. They mean everything to me. And it is they who make me rich" it follows that human resource management plays a key role in the level of achievement of an effective result.

In total, 18535 people live in the Kirsnowsky district on 01.01.2020.

The number of unemployed as of 01.01.2020 year Kiersnowska the district amounted to 27 persons. Compared to 01.01.2019, there was a decrease of 2 people or in percentage terms by 7.4. The unemployment rate at the beginning of 2020 was 0.3% of the economically active population, and remained at the level of 2019 (in the region-3.8%). In 2019, 344 people applied to the Employment Center in search of a suitable job, 88 people were recognized as unemployed, which

remained at the level of the corresponding indicator in 2018. Employment Service on 01.01.2020 257 people were employed – this is 74.7% of the total number of applicants

According to the Unified Register of Small and Medium-sized Businesses, as of January 1, 2020, there were 359 units in the Kirsanovsky district, of which 53 units were small enterprises, and 306 units were individual entrepreneurs. Per 10,000 people, the population is 190.5 compared to 224.7 in 2018.

On the territory of the Kirsanovsky district, a large enterprise LLC "South-Eastern Agrogroupp", which is part of the large agricultural holding GGC ASB, is registered.

For those working in enterprises and organizations, the main source of income is wages.

One of the indicators that characterize the social situation in the Kirsanovsky district is the absence of wage arrears at enterprises and organizations.

Over the past year, the average monthly accrued nominal salary of employees of enterprises and organizations of the Kirsanovsky district for net economic activities amounted to 29421.2 rubles and increased by 104.0 compared to the previous year%

The average monthly salary in the agro-industrial complex of the district for 9 months of 2020 amounted to 40016 rubles, compared to 2019, the growth was 112 %.

The increase is observed practically in all spheres: salaries in the field of "all other services" by 26.7%, healthcare and social services 13.1%, education 11.6%, in the sphere of transport and storage 4.2%, in the sphere of "wholesale and retail trade, repair of motor vehicles" 10.6%.

Work is underway to implement a series of measures for gradual increase of salaries of employees of municipal institutions of the district and the execution of the presidential Decree of may 7, 2012 № 597 "On measures on realization of state social policy".

Special control is exercised over the target indicators for the salaries of teachers and cultural workers.

Small and medium-sized enterprises

The district administration is working to assist to the positive development of small and medium enterprises, creating economic and legal conditions for increase of efficiency of activity of small enterprises, increasing the share of small and medium enterprises in all sectors of the economy.

In the Kirsanovsky district, as of 01.01.2020, 359 small business taxpayers were registered, falling under the criteria established by Federal Law No. 209-FZ of 24.07.2007 "On the Development of Small and Medium-sized Businesses in the Russian Federation".

The analysis for the reporting period shows that the ongoing work on the implementation of the planned activities is yielding positive results. Such an indicator as the number of small and medium-sized businesses per 10 thousand people of the population was: in 2020 – 190.4 units.

Agricultural production, retail trade, construction, and transport remain the priority areas of small business development in the district.

With the adoption of Programs for the development of animal husbandry, there is a tendency for the growth of dairy and meat herds in the district. This will mainly happen due to the increase in the number of animals in the newly created peasant (farm) farms.

The most attractive for small and medium-sized businesses remains the sphere of trade and services, in which more than 40.0% of small and medium-sized businesses operate.

As of 01.10.2020, there are 61 retail facilities in the district, the retail area of which is 5396.0 square meters, including 57 shops, 3 pavilions and 1 pharmacy. The actual provision of the district population with the area of stationary retail facilities is 289.1 square meters per 1000 residents, which is 100.7% of the approved standard (287.0 square meters). The consumer market, which determines supply and demand, is also one of the main indicators reflecting the standard of living of the population.

In order to provide practical assistance to entrepreneurs and create economic conditions for the development of small businesses in the district, the municipal program "Economic Development and Innovative Economy for 2014-2024" was developed and approved, including the sub-program "Development of small and medium-sized businesses»

The main priority areas of support identified by the Program are financial and property support, improvement of taxation systems for small and medium-sized businesses, development of information and consulting support for small and medium-sized businesses, promotion and popularization of entrepreneurial activities.

The program provides free access for small and medium-sized businesses to information about the possibility of access to land and property resources.

The list of municipal real estate intended for transfer to the use of small and medium-sized businesses has been approved, which is updated as necessary.

The list of objects to be provided for the use of small and medium-sized businesses in the district includes 32 objects. Similar lists were approved in 7 village councils of the district.

The Procedure for providing support to small and medium-sized businesses engaged in priority activities by providing rent benefits for the use of property owned by the municipality has been approved.

As part of the provision of information support to economic entities, the website of the Kirsanovsky district explains the main provisions of land and urban planning legislation in order to encourage investment in the real sector of the economy and the receipt of additional income to the district budget.

In accordance with the procedure established by law, a register of entities receiving property support is maintained.

Law No. 44-FZ provides for the obligation of municipal customers to place orders from small businesses in the amount of at least 15 percent of the total annual volume of deliveries of goods, performance of works, and provision of services. In accordance with this law, in 2019, the volume of work placed with small businesses amounted to 29,855.2 thousand rubles, or 99.5%. Thus, small businesses are provided on a competitive basis to participate in the implementation of the municipal order.

The consumer market

By type of economic activity, small businesses have covered many industries, but the most common is still trade.

As of 01.01.2020, there are 62 retail facilities in the district, the retail area of which is 5612.0 square meters. meters, including 58 shops, 3 pavilions and 1 pharmacy.

The actual provision of the population of the district with the area of retail facilities is 296.0 square meters. meters per 1000 inhabitants, which is 103.1% of the approved standard.

In recent years, the consumer market of the district remains highly saturated with food and non-food products.

The retail trade turnover of enterprises that do not belong to small businesses in 2019 amounted to 130.6 million rubles, which in terms of product mass at comparable prices exceeds the level of 2018 by 2.1 times. In order to prevent an unjustified increase in prices for socially important food products, prices for socially important food products were monitored weekly for 22 items.

Health services provides Tambov regional state budgetary healthcare institution "Kirsanovskaya CRB", which is composed of 15 units located in the villages of the district 3 Centre of General practice (family medicine) in Leninskoye, S. Sokolov and S. Calais, 8 feldsher-midwife stations (FAP), paramedic 4 common points (fzp). In the staffing table of the structural divisions serving the population of the district: 2 doctors and 19 units of secondary medical personnel.

In order to improve the availability and quality of medical care to residents of remote settlements of the district, 2 times a year, doctors-specialists of Tambov regional health institutions, which are part of the social road train "Care", are received.

Mobile assistance to citizens of the older generation is carried out through the implementation of the national project "Demography" of the regional project "Older Generation". On a monthly basis, in accordance with the departure schedule, the mobile team delivers elderly people to medical institutions for medical examinations and medical appointments.

The fluorographic survey of the population of the district is carried out with the help of a mobile fluorographic office.

At the expense of Federal funds purchased by medical complex ML-PC Diagnostics designed for the in-depth survey of the health status of citizens in order to early detection of chronic noncommunicable diseases, key risk factors, determination of health status, the necessary preventive, therapeutic, rehabilitation and recreational activities for people with identified chronic communicable

diseases or their risk factors. The mobile medical and preventive complex allows you to conduct a wide range of diagnostic tests in field hospitals.
